BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. TUESDAY, JANUARY 24, 1854. VOLUME XX....NUMBER 176.

Bangor Daily Whig and Courier
IS PUBLISHED
Over the Kenduskeag Market, at Five Dollars a year, payable half yearly in advance. All subscriptions for less than a year to be paid in advance, and all orders for discontinuance must be accompanied by the amount due.

The BANGOR COURIER is published at the office of the Daily Whig and Courier, every Tuesday morning, at One Dollar Fifty Cents a year in advance, or Two Dollars if not paid in advance.

The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safe, and to propose—good security the devouring element of fire. As regards the most skilful burglar, To MERCHANTS, JEWELLERS, and BANK DIRECTORS, we would only say, examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way, without resorting to any unfair tricks.

Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs. Pond & Hitchcock's Oil Store was situated directly under the Pearl-st House, and was totally consumed in the great fire of August 23.

New York, Aug 23 1853

Messrs. Wm. McFarland & Co.

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers, at the disastrous fire of the Pearl-st House, last evening, in the most perfect manner. Although it was covered throughout the fire with burning Rosin, and other Oils, and directly under a broken gas pipe, in the most intense heat, it remained true, in its frame, and its contents when taken out were not even scorched, and bar its hue the least on fire. To any one who may want a superior Safe, a perfect safeguard against fire, we cheerfully recommend your manufacture, having had a personal experience of their excellence. Yours truly,

S F POND & HITCHCOCK

Our Depot, where an assortment of all kinds and sizes is constantly on hand, is at

The Boston Journal.

Published Daily, Semi-Weekly, and Weekly.

TERMS.

DAILY in advance,........Six Dollars a year
SINGLE COPIES,........Two cents
SEMI WEEKLY,........Four Dollars a year
WEEKLY........Two ...
JOURNAL FOR CALIFORNIA ... 8 cents per copy

The proprietors of the BOSTON JOURNAL, some three years since adopted the low price cash plan, the circulation of their paper, and have met with success beyond their anticipations. Convinced that this course is the most profitable to themselves, their readers, and their advertising friends, they are determined to adhere to the system, and although the expenses of publishing a newspaper have much increased within a few years, the subscription and cash prices of the Daily, Semi-Weekly, Weekly, and California Journal will remain the same, while no expenditure of money or labor will be spared to keep the Journal in advance, and, if possible, in every point which goes to make up a Live Newspaper of the present day.

THE DAILY JOURNAL,

Although furnished at the low rate of TWO CENTS a copy, contains MORE READING MATTER than any other daily paper in Boston. It is published

Morning and Evening,

and other editions as often as to contain the VERY LATEST NEWS received by the Mails and Telegraph to the moment of publication. It is the determination of the proprietors to make it emphatically and in every sense of the word,

A NEWSPAPER!

and its news will be a correct report of all proceedings of all parties and sects. It will give full and complete reports of the state of the Markets, and of accurate Shipping lists, doings of the Stock Exchange, and Money Articles. Important events and accurate full reports of the debates in Congress, all reports of all the doings of the ... full reports of meetings and accounts of Public Meetings, with ... reports of the speeches, when the occasion requires, &c., &c. Indeed, the reader of the Daily Journal ... be sure of finding a record of everything of general interest which transpires either in the city or abroad. ... and in order to establish EXTENSIVE CORRESPONDENCE, and by a liberal use of the

Magnetic Telegraph,

the Journal will at all times be in possession of the latest News; and by the publication of a double edition both

MORNING AND EVENING,

the proprietors are enabled to send by

Every Mail and Express!

which leave the city during the day, thus furnishing the news not a few hours only from 12 to 24 hours in advance of those papers which print only one edition a day. The Journal is printed on one of ... HOE'S CELEBRATED FOUR CYLINDER LAST PRESSES, capable of printing TEN THOUSAND AN HOUR, and we are thus enabled to print our large edition, at all times, and so, and also, supply the demand, however large.

As an evidence of the success which has attended the publication of the Journal, the proprietors would state that its circulation at present is more than TEN TIMES AS LARGE as in 1849—and more than SIX TIMES AS LARGE as in 1850—periods of ... years—and that its present circulation is larger than it has ever been during the first five years. Its present circulation is LARGER BY THOUSANDS THAN ANY SUBSCRIPTION OR TWO CENT PAPER PUBLISHED IN BOSTON OR NEW ENGLAND!

Either edition will be mailed or sent by express at the rates mentioned above for any length of time the subscriber may wish. It is also served by faithful carriers in all parts of Boston and adjoining cities, both Morning and Evening, and is for sale at the Periodical Depots, and in all of the large towns and cities on the lines of the Railroads throughout New England.

TO ADVERTISERS.

Advertisements are inserted at fair prices, in clear type, set up in a uniform style, and arranged under appropriate heads, so as to attract the attention of the reader. ... The price charged ... Journal for an advertisement ... inserted ... ALL ADVERTISEMENTS appearing in MORNING and EVENING papers, with no EXTRA CHARGE; thus securing to advertisers the benefit of two papers, for one price.

Largest Circulation

of any subscription paper in New England. Advertisements in the Weekly, Semi Weekly, or California Journal, will be subject to an additional charge for each paper.

THE SEMI-WEEKLY JOURNAL

Is published Tuesday and Friday mornings at Four Dollars a year in advance. It contains all the reading matter of the Daily for three days, and is valuable for country circulation.

THE WEEKLY JOURNAL

Is made up expressly for country circulation, and contains a vast amount of miscellaneous and news matter, reports of Lectures, Meetings, &c. It is published every Thursday morning, at Two Dollars a year in advance, handsomely printed on good paper, with fair type. As

A FAMILY NEWSPAPER

it has enjoyed an enviable reputation during a long series of years. Its circulation throughout New England is very large and is constantly increasing.

THE JOURNAL FOR CALIFORNIA

Is made up prior to the sailing of each mail steamer, expressly for circulation in California, and is a welcome visitor to those who have left their homes in search of fortune in the Golden State. It is sent by mail, or sold at the publication office, at ... a copy.

All orders for either of the above papers should be accompanied by the cash, and addressed to the publishers,

SLEEPER & ROGERS,

No. 12 State Street, Boston, Mass.
December, 1853 eodtf

PORTLAND ADVERTISER.

DAILY, TRI-WEEKLY & WEEKLY.

THE Publishers of the Advertiser having recently, at great expense, made arrangements for the Daily publication of

Full Telegraphic News!

simultaneously with the Boston papers, would call the attention of all who are desirous of the

Latest Intelligence!

to the fact, that the Advertiser will publish every morning the same news by telegraph as will appear in the Boston morning papers of the same day. The Boston papers do not arrive in this city until noon of the same day, and of course must be half a day behind the Advertiser in the same news, throughout this State.

To add to the interest and usefulness of the Advertiser, the DAILY has been

MATERIALLY ENLARGED,

and its Publishers will spare no effort or expense to make it in every respect a first class newspaper.

TERMS OF SUBSCRIPTION.

DAILY ADVERTISER, $5,00 per annum—from which a discount of ten per cent will be made if paid in advance.

TRI-WEEKLY ADVERTISER, $3.50 per annum.—If paid within the year $3,25—if paid in advance $3,00. Two copies to one address, $5,00 in advance.

WEEKLY ADVERTISER, $2,00 per annum; from which a discount of ten per cent will be made if paid in advance.

No paper discontinued until all arrearages are paid unless at the option of the publishers.

AS AN INDUCEMENT TO CLUBS, AND FOR THE ... OF THE ... WE OFFER

The Weekly Advertiser

UPON THE FOLLOWING TERMS:

Five copies, one year,..............$8.00
Ten copies, one year,..............12.00
Twenty copies, one year,............20.00

In each case the papers furnished to Clubs in a bona, will be sent to one address, must be paid for strictly in advance, and will be invariably discontinued at the expiration of the term of subscription.

Any person who may get up a Club of new subscribers, upon the foregoing terms, shall be entitled to an extra copy of the paper for himself, as long as the Club shall continue.

jy22

Thrice Weekly Journal FOR 1854.

DURING the approaching session of the Legislature, the undersigned will continue the publication of the Thrice-Weekly Journal, being Volume X of the same.

While the paper will be principally devoted to furnishing a correct Report of Debates and Legislative Business generally, a fair share of attention will be given to Miscellaneous and News matter.

The unusually momentous measures, the Legislature ... which devolves the organization of the State government, and the election of a U. S. Senator, besides action upon other matters of importance, will give to it unusual interest.

The Thrice-Weekly Journal will be published on MONDAY, WEDNESDAY and FRIDAY evenings, alternating with the Thrice-Weekly Age, ... thus furnishing a daily Legislative paper. The price will be ONE DOLLAR FOR THE SESSION, as usual—payable in advance.

It is desirable that the names of subscribers accompanied with the money, should be sent in a week at least before the session commences.

WM. H. SIMPSON
Augusta, November, 1853.

SEYMOUR'S GALVANIC

ABDOMINAL SUPPORTER.

THIS apparatus is founded upon the curative principles of the Abdominal Supporters now in use, and also embraces a valuable improvement in the galvanic attachment. It has been received with approval of, and universally adopted by the practice of all the leading Physicians of New York, Boston, and all other places where introduced. As the Abdominal Supporter has been used for ... in thousands of cases under so many different kinds ... that particularly in the case of Uterine debility, as a ... its beneficial results which have proved ... of the use of the instrument, ... unquestioned utility and beneficial application. The advantages of this over other Supporters are, ... Galvanic action, prevents ... and ... does not retain ... from the system, and can be kept in good order ... all times.

The attention of the medical profession is respectfully solicited to an examination of this instrument. The above Supporters are sold by GEO W EMERSON, Druggist, No. 4 Smith's Block, sole agent for Bangor and vicinity.

Whig and Courier.

OUR COUNTRY. A Boston lecturer asks—

Are we afraid that our children's children will lose the purity of their Anglo-Saxon blood? Physiology will tell us that there is a law of nature which should allay all fears of deterioration. If we consult history, we shall find that the unmixed races have always either remained stationary or retrograded, while the mixed races have been strong and progressive. India and China are examples of the first proposition—Greece and Rome of the latter. Look at England a nation which has done more, perhaps, than any other. The ancient Britons were first conquered by the Romans, then came the Saxon, a stern, cool, hardy man—next came the warlike Dane—next the proud, chivalrous Norman, the aristocratic lord of old England. In process of time these diverse elements were blended together and produced the modern English—men—a race tenacious of individual rights, plain, sturdy, and energetic—a race which has never yet been driven from any soil on which it has planted his foot. England has been and still is the champion of Protestant Christianity, which redeems the right of individual judgment in matters of religious faith.

These examples teach us that when the Divine Being intends to bring a people to an instrument in human affairs, He does not take the old races, whose characters were fixed, or nations that have become so fixed that they have lost all flexibility. He brings together new and plastic people who are greatly dissimilar, and moulds them into a new race, pouring a spirit suited exactly to his purpose. Such a race the American people will eventually become, for the combination of people ... characteristics of the ... a body of Anglo-Saxon, Celtic and German blood. The Anglo-Saxon ... the ... Celtic ... the German in the ... The Anglo-Saxon will contribute ... with the Celtic impulsive enthusiasm ... strong common sense. The first ... the second of ... the third ... The first has wit, ... and humor, the third imagination. The first has ambition, the second generosity, the third honesty. The first ... the second ... the third foresight.

The men who founded this government, and the ... have been constantly enlarging and restricting the ... element, until every ... in our Union of sovereign States, himself a sovereign. A ... have become more ... and ... have naturally changed their ... government from the ... danger ... monarchy ... democracy. They ... not an anarchy, but an ... This ... the ... people—the establishment of person ... liberty ... the ... love of power among the English, love of wealth. Among Americans love of freedom is inherent in every pulsation of the heart. This is the reason why the great heart of the nation responded so warmly to the appeals of the great Magyar, and sympathizes with every subject of tyranny, and his voice is ever lifted high and courageously in behalf of the oppressed.

A Free Fight.

The following apologue from the Savannah News in illustration of the "Eastern Question," is amusing, and was apparently apropos at the time it was written:

Once there was a bar took a fancy that he'd like to eat a gang of turkeys—only ... to work to pick a quarrel with the head gobbler of the flock, about some of his domestic affairs. The gobbler allowed it was none of his business, and said he'd not be dictated to, not by no bar that ever walked on 3 legs. The bar said he didn't want to make no disturbance, and he hoped the turkeys wouldn't oblige him to ring the ... neck, but they must do as his wanted 'em to, for he'd make 'em see sights. The turkey said he was willin to do what was right, and that he had never done nothin else, but he wouldn't be bullied under his own roost-pole before he'd allow the bar, or anybody else to interfere with his concerns.

About this time along came a lion and a rooster. They said it wouldn't do for them to let the bar eat up the turkeys, or the next thing they'd know he'd be pitchin' into them. So the lion said "is this a free fight?" The turkey told him "it are." He said he was impelled upon by the bar, and if they thought him right they might see him out. "Stand your ground, old hoss," says the lion and "count me in." The rooster joined the lion, and bristled up on the side of the turkeys. With that the bar, not minding neither of them a feather, just jumps right into the turkey pen, and opened his mouth wide enough to swallow the whole party.

The lion backed himself up in the corner, and droppin his tail between his legs, said "are this a free fight?" and the bar told him "yes it ar."

"Wool," says the lion, "count me out."

What become of the turkeys, nobody don't know yet; but if the bar didn't eat 'em up, neck and gizzard, it was because he found 'em tuffer than he thought they was.

The lion and the rooster made a terrible to do about the circumstances—but they took monstrous good care to keep out of the reach of the bar.

SPIRIT DRINKING IN SWEDEN.—In Sweden, the people are fast rising to a fearful conviction of the self-entailed miseries produced by spirit drinking. The late allusion to this vice in the King's speech, at the opening of the Diet, seems to have been more the reflex of incipient public opinion than an original conception of his own. Various petitions have been presented of late to King Oscar, praying him to take such measures as shall avert the misery which threatens the nation if the production of spirits be allowed to continue in its present extent.

The last of these petitions had 16,000 signatures. The people begin now to assemble in large crowds, and to call tumultuously for the closing of the distilleries, "that they may be secured against death before next harvest comes round." In some cases the mob has forcibly entered the distilleries, and with the cry, "The hell drink shall not be made any more," put out the fires. Hitherto no more violent excess than the above has taken place.

"YOURS, TRULY."—We recently heard an anecdote of Mr. Oliver Ditson, the celebrated music publisher, in Boston, that beats anything that we have seen from the Knickerbocker.—This gentleman went to visit some of his country friends, and as they sat down to dinner, one day, the old gentleman being absent, he was called upon to ask the usual "blessing." Although not accustomed to do this service himself, he wished to be accommodating, and accordingly went on and said "grace" in a very acceptable manner, until, towards the conclusion, when, his mind somewhat wandering, he naturally thought he was framing a polite note to some of his correspondents, and concluded with the words—"Yours, truly, Oliver Ditson"!

Can anything more ludicrous be imagined? How true it is, that "there is but one step from the sublime to the ridiculous." Ditson is a capital fellow, but it is said that nothing makes him feel sorer than to say "yours, truly," in his presence.

"Breathes there a man with soul so dead—who never to himself has said—I will my county paper take—both for my own and family's sake? If such there be, let him repent—and have the paper to him sent—and if he'd pass a happy winter—he in advance should pay the printer."

The mansion house on the estate at Mt Vernon is now 103 years old.

Can Inconsistency farther go?

The second number of John Mitchell's "Citizen," published in New York for the purpose, among others, of establishing the independence of Ireland, contains a most strange declaration adverse to the essential spirit of human liberty. Mr Mitchell recently arrived in this country as the fugitive from governmental oppression and was hailed as a martyr to the cause of human liberty. He was hailed as the representative man of the age, escaped from the iron grasp of a too rigorous government to bear onward and upward the torch of freedom to the oppressed of all lands. His large experience under the weight of a monarchy—his wide observation of the cruel wrongs of governmental exertions and oppressions upon the people of Ireland, and his long study of the nature and effects of these oppressions, and his general activities or sense of adequate remedies, were all supposed to have prepared him for a full and just estimate of the nature of human freedom—the all-pervading existence of human rights, based upon the solid foundations of the fatherhood of God and the brotherhood of man. The mission Mr. Mitchell had undertaken of awakening the moral energies of the world to the amelioration of the condition of Ireland seemed at once greatful and appropriate. His experience, his observation, his studies, his labors in a distance from the corrupting influence of positive human slavery, all seemed favorable to a broad and noble advocacy of human rights and a skilful and appropriate direction of intellectual and moral forces into a burning focal ray in furtherance of national freedom to Ireland, the point well understood to be nearest Mr Mitchell's heart.

It is a sad and a bitter disappointment to find that the second number of Mitchel's "Citizen" blasts all these expectations, and reveals how narrow and partial are the views entertained of human liberty and human right. A fat cheek and a full stomach seem to be held as a full compensation for the loss of all rights.

In reply to a letter addressed by a citizen of [illegible] to one of the editors of the Citizen Mr [illegible] in reference to the subject of American slavery, Mr Mitchell replies by setting forth the character of the person who writes the letter and then writes down his own character in the following words:

"We are not abolitionists; no more abolitionists than Moses, or disciples of Jesus Christ. We deny that it is a crime, or a wrong, or even a peccadillo to hold slaves, to buy slaves, to sell slaves, to keep slaves to their work, by flogging or other needful coercion."

"But we will not be so lost, when occasion calls for speech and, as for being a party to it in the western, we, for our part wish we had a good plantation, well stocked with healthy negroes in Alabama."

We wish to mark this language, and to comment most emphatically. There is no excuse for the writer in being educated and brought up amidst slavery—none as to the prejudice growing out of an established institution which has worn itself into the social system. His language is very broad and his denial that slavery is a wrong, or a fault, very full, more so, probably, than any intelligent slaveholder in the country would indulge. Is not this a strange sentiment from the pen of a "Patriot" just breathing the air of freedom and in the name and in behalf of Irish independence pleading before the world. Does not the utterance of such sentiments prove this man in no guide to liberty—does it not show that while he cherishes the love of liberty for Ireland he shuts up his love of liberty for the rest of mankind, and to those out of his own shield human heart a deity of?

The Albany Register an anti-Seward paper, well observes:

"This is a bad beginning for a man who claims to have suffered so largely in the cause of human freedom. It is a bad exhibition of taste. This flippant and irreverent use of the Redeemer's name savors of blasphemy, and this free talk about "buying and selling and flogging slaves," argues against the duty he holds of human rights in the abstract or as a matter of principle. We are for giving the constitution full scope, and carrying out, frankly and practically all its provisions, and fulfilling its guarantees to the letter, but when we see the "Patriot Mitchell," as a matter of choice, advocating the buying and selling and the flogging of slaves, and hear him regret that he has not the ability to engage in the traffic we cannot but think the title conferred upon him is a misnomer, and that it would be more fitting to call him the exile the demi-god, or the tyrant."

☞ Our readers who intend visiting the city of New York are referred to the notice in another column of Taylor's International Hotel, Broadway, corner of Franklin street. This hotel will be found possessed of many attractions, and comforts for the traveller and those spending a few days amidst the elegant refinements and luxuries of the great city.

Munificent Gift of a Bostonian to the American Colonization Society. In the annual report of the American Colonization Society, read at the annual meeting on the 17th inst, it was stated that Montgomery Bell, Esq., of Nashville, Tenn, had liberated and sent to Liberia an entire family of slaves, consisting of a man and his wife and thirty-six children and grand-children. The same gentleman was also ready to send about eighty more slaves, in would give them a good outfit, pay the expense to the port of embarkation, and one half the amount necessary to transport them to Liberia and support them there six months. The Society was anxious to find some generous friend who would pay the other half, $2500.

A Washington correspondent of the N. Y. Times says that the generous friend has been found in the Hon. Mr. Appleton, of Boston, a member of the House of Representatives who was present at the annual meeting, and the next day transmitted a note to the Secretary of the Society stating that he would contribute the sum necessary to send the people to Liberia. We see it stated from the report mentioned above, what is said of Mr Bell and his slaves:

"They (the slaves) are natives of Tennessee. Mr. Bell has long been known as one of the largest manufacturers of iron and his slaves have been his only workmen. They thoroughly understand the business, and are men of high moral character, who would be an acquisition to any country. Thomas Scott, the patriarch of the family, who sailed in the Gen. Pierce, helped to make the cannon balls which were fired from behind the cotton bales at the battle of New Orleans, and he is yet a man of great activity and energy of character.

"We are not entirely mistaken in our calculations, this family of Mr Bell's will be a element in Liberia's history and operations of the most valuable character, for iron ore is found there in great abundance, and of remarkable purity."

☞ Letters patent have been granted to Mr. I. A. Cummings of North Enfield, Me, for improvement in machinery for mortising frames of window blinds.

The Maine Telegraph Company will erect, early next season, a new line from Portland to Boston with two or three wires, and an additional line to Bangor, via Waterville.

☞ There is a rumor from Halifax that brig Mary Jane, from Dublin to New York, with passengers, is ashore at Jadore Ledges, and out of 150 souls, only six are said to be saved. This needs confirmation.

Collectors Confirmed.

Washington, Jan. 20.

The following confirmations as Collectors, are officially announced:
Gilbert Bradford, at Providence, R. I.
George H Reynolds, at Bristol and Warren, R. I.
Geo Turner, at ——, R. I.
[illegible] Hooart, at New London
[illegible] Walker at Nantucket
Wm Bartoll, at Marblehead, Mass.
Wm S Pomeroy at Fairfield Conn.
[illegible] Chedsey, at Stonington, Conn.
Ephraim K. [illegible], at Belfast, Me.

XXXIII CONGRESS.

Washington, Jan 20

HOUSE

To-day, the debate on New York politics was carried on by Messrs. Cutting and Perkins. Mr Wade obtained the floor when the committee rose, and House adjourned till Monday.

Report on Crops.

To the Trustees of the Penobscot Agricultural Society for the year 1853:

The Standing Committee on Crops, composed of Samuel W Knight of Garland, Isaac Case of Kenduskeag, and William Grinnel of Exeter, having duly [illegible] the several certificates of the competitors for the Society's premiums on Crops, have awarded the following, viz:

On Indian Corn.

To E. F. Crane of Kenduskeag, on one acre of Indian Corn, being the largest amount reported, (seventy-nine bushels) the Committee award the Society's first premium of three dollars.

To William Grinnel of Exeter, on one acre of Indian Corn, produce 152 bushels of ears, the Committee award the second premium on that crop, of two dollars.

To Isaac Case of Kenduskeag, on one half an acre of the same crop, product seventy two bushels of ears, the third premium of one dollar.

To Nathaniel E. Brown of Exeter, who entered one and three fourths acres of same crop, product 219 bushels of ears, the Committee recommend a gratuity of one dollar.

Also, to Samuel W. Knight of Garland, on one half an acre of the same crop, product 60 bushels of ears, the Committee recommend a gratuity of one dollar.

To John McComb of Garland, for one acre of Wheat raised by him, product 10½ bushels, although not a large crop compared with former years yet your Committee deem it their duty to encourage the exertions of those who continue them for cultivating that necessary and important crop, when such large importations of flour at a high price, from the Western States, are made to supply even the farmer with daily bread, the Committee award the Society's first premium on that grain of three dollars.

To E. F. Crane of Kenduskeag, for one acre of Oats and Peas product fifty two bushels, we award the first premium on that crop, of two dollars.

To Samuel W. Knight of Garland, for one acre of the same, product 40½ bushels, we recommend a gratuity of one dollar and fifty cts.

Also, to the same, for one acre of Barley, product 29 bushels first premium of two dollars.

To William Grinnel of Exeter, on one acre of the same grain, product 20 bushels, a gratuity of one dollar and fifty cents.

To E. F. Crane, on one acre of Potatoes, product 200 bushels, we award the first premium of three dollars.

To Samuel W. Knight, of Garland, on one acre of the same, product 120 bushels, the second premium of fifty cents.

Also, to the same, on one-fourth acre of carrots, product 2360 pounds, the first premium on that crop of two dollars.

To Samuel W. Knight of Garland, on one fourth acre of Beans, product eight bushels, (yellow eyed) the premium of one dollar.

Your Committee regret to find so small a number of the farmers of this county coming forward to make reports respecting their products and their doings in the fields, and claiming the premiums offered by the Society, from year to year, on the valuable and necessary staple of life. They are satisfied that if this were more generally done by our agricultural friends, they would greatly stimulate each other to increased exertion, and the most beneficial results would follow. They are happy, however, to know that amid the past years of "pot to rot," dry seasons, and consequently of short crops generally, that the old Indian Corn, that substantial article for food for man and for beast, has faithfully "stood its ground" when its cultivation has been duly attended to, and that too much encouragement cannot be offered in order to promote its production. Our friend Crane, it will be perceived, has but been wanting in his accustomed exertions on the farm during the last season. Perhaps he may have deemed that something was due from him in this way (just much as he holds the office of President in the Board of Agriculture for the State of Maine. However that may be, he deserves some notice from us farmers as well as some others "that might be named."

All which is respectfully submitted

ISAAC CASE, per order.

Kenduskeag, January 9, 1854.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

LATER FROM EUROPE.

ARRIVAL OF THE

NIAGARA AT HALIFAX.

Great Snow Storms in Europe.

RUSSIAN AND TURKISH WAR!

Emperor Nicholas Helped by the Church.

PROSPECT OF A GENERAL WAR!

Great Rise in Breadstuffs!!

Halifax, Telegraph Office, January 23rd, 1854

Steamship Niagara from Liverpool Saturday, 2½ o'clock, P. M. 7th of December, arrived at Halifax at 9 o'clock, A. M., the 23d.

She brings seven days later news.

The Arabia screw-steamer arrived at Liverpool at noon on Sunday the first.

The steamship Atlantic arrived at the same place at 2 o'clock on Thursday afternoon, 5th.

The steamship City of Glasgow, sailed from Liverpool on the 6th, for Philadelphia.

GREAT BRITAIN

Great Britain has been visited by the greatest snow storm in many years. All the roads were blocked up two days, and the mails were altogether irregular when the Niagara sailed.

Liverpool merchants on 'Change, in lack of business, had recourse to a snow-ball fight.—The Cotton Brokers versus Stock Brokers, were the parties engaged in the novel amusement, which ended in an unwarrantable interference of the police, when quite a row ensued.

Our French letters mention an equally great detention in that country.

In Belgium, the snow has fallen some feet deep on the railways, and troops are employed in clearing the track beds.

At Madrid, in Spain, the ice is thick.

In the north of Europe the winter is severe. The Baltic Sea is packing with floating ice.

It was reported that a duel between Soule the American Minister, and Lord Howden, the English Minister, at Madrid, was only deferred on account of a death in the latter's family.—Lord Howden was M de Turgot, the French Minister's second in his late duel with Soule.

THE LATEST.

MANIFESTO BY THE EMPEROR OF FRANCE.

The Moniteur contains a circular dated Dec. 30 by the Minister of Foreign Affairs to all French Legations, on the Eastern Question.

Document moderate, but very firm. After narrating the phases of the question, it declares that France, England, Austria and Prussia have recently, by agreement at Vienna, solemnly recognized the territorial integrity of the Ottoman Empire, was one of the conditions of their political equilibrium, further, that affairs of Sinope took place against all provisions, Russia having declared that they only desired a material guaranty. Therefore, to prevent the Ottoman territory from a new attack by naval force of Russia, the French and English fleets have received orders to enter the Black sea. The Circular terminates by expressing a hope that Russia will not expose Europe to new convulsions.

The papers authentically further state that the French government is dissatisfied with the wavering conduct of Austria, and has addressed that Cabinet a strong remonstrance, intimating that any further accession on her part from the proceedings of the other three powers, will be taken as an indication of meditated hostility, the results of which she must be prepared to abide by, whatever they may be. And France will accept aid to Hungary, Italy, &c.

The Patrie and Bulletin give reports that the Czar had orders for immediate preparations for crossing the Danube. If true, it seems that the Czar has rejected the propositions of the four powers.

Advices from Constantinople agree that little hope is entertained of new negotiations leading to a satisfactory results.

Vienna, Friday Evening.

The Turkish Council has declared itself permanent. Hamdey is established in the Cabinet.—On a recent disturbance the Sultan declared to the French Ambassador that he would rather abdicate than accept assistance against his own subjects.

The Russians have occupied the Austrian Wallachian Frontier from Orsova to the Yorfburgh Pas, near Cronstadt. The Russians also are permitted to make purchases within the Austrian frontier.

Count Esterhazy has not yet gone to St. Petersburgh, it is therefore supposed that some political misunderstanding has arisen.

Constantinople is tranquil.

Trieste is mentioned as neutral town for Congress.

Krajova advices to Dec 30th, say the Peasantry had insurrection along the Danube from Kalafat to Durnol as far as the Aluta were supported by Wallachian irregulars.

Russian Minor officials everywhere turned out.

TURKISH WAR.

Authentic intelligence confirms previous reports that on the evening of Dec. 20th the Porte accepting note of four powers, says it would not undertake conditions object to Armistice, but contranews insist of evacuation of principalities; consents to Congress in a neutral city, consents to revision of existing treaties and to consider the propriety of further amelioration of Christians, but the integrity of the Ottoman empire and the Sultan's sovereignty must be maintained.

The deliberations of Divan continued three days 20th, 21st, and 22d. On deliberations transpiring in Constantinople 21st a tumult arose. A mob of 20-4 softas urged on by Ulemas assembled to present remonstrance to the Sultan declaring that the ferniat constitution was violated by the resolutions of council. For a time a riot was feared and the English and French steamers and marines were called to Constantinople. The night passed over quietly. On the 22d a Proclamation was issued and quiet restored. Several persons were arrested and banished to Candia.

"Something definite as to the action of the Czar was daily looked for at London and Paris. It was stated from St. Petersburgh, December 20th, that Nicholas formally rejected the Vienna protocol and note of the 5th, but would consent to receive and examine the Turkish propositions of the 20th as above, although he persists in refusing to recognize the right of European intervention in matters which he says concern Russia and Turkey alone.

It was reported several times during the week on Paris Bourse, that the Czar had received and rejected the Turkish propositions, but rumor was premature.

To the 25th, the fleets had not entered the Black Sea, owing to tempestuous weather.

Contractors at Malta are ordered to form depots at Sinope, Varna, and Trebizonde.

The instructions to the fleet are, that in the event of meeting Russian ships of war they will in the name of their respective governments request the Russian officer in command to return with his ship or ships to Sebastopol, where he will find further instructions from his own government. On refusal, force will be used.

Russian statements affect not to feel the slightest alarm as to the threat of the allied squadron. On the contrary, they assert that the entry of the fleets will be the signal for simultaneous outbreaks in India, Algeria, Greece, and a Greek insurrection throughout the Turkish empire, all being organized by agents of the Czar.

Heavy snow prevented operations of magnitude.

Daily small skirmishes between outposts of the two armies.

A Russian despatch says that the Turkish army in Asia is totally disorganized, and Selim Pashaw and Gen Guyon killed by the troops. No one believes this.

Turkish accounts acknowledge the evacuation of the Russian territory in Asia, but say it was effected without the reported losses.

Abdi Pashaw, commander in Asia, is removed, and succeeded by Ahmed Pashaw.

Two Firmans have been sent to Servia, one guaranteeing all Servian privileges, the other conceals all the Turco Russian Treaties, but permits Servia to claim the protection of all the powers.

The latest news from Persia is more satisfactory, but seems irreconcilable with the statement that the Russian General Yermol commands the Persian army.

A despatch from Constantinople of the 5th says, Thompson, British Charge in Persia, has succeeded in terminating the differences between Brittain and Persia.

Ahmet Effendi, the Turkish Charge, being satisfied with the explanation of the Persian Government did not think it right to interrupt relations with them.

M. Kenlhoff, Russian Consul General at Teflis, has gone to Persia and Afghanistan as a special Envoy of the Czar. Accounts from all parts of Russia describe extraordinary military activity, unexampled since 1813. The Czar has just got a supply of twenty millions of rubles from the church.

The London Observer says that agents are on their way to the United States to purchase ships and arms, privately, for Russia.

Hahl Pashaw is Minister without the portfolio. Riza Pashaw supercedes Mahmoud Pashaw as Minister of Marine.

GREAT BRITAIN

Much indignation is excited at the discovered interference of Prince Albert in politics. The most independent of the papers, and yet most loudly the public voice protest that Albert is the subservient tool of Russia, and that Lord Aberdeen is altogether under Albert's influence. The Prince betrays secrets of the British Cabinet to the Russian, Austrian and German Courts, and the important State Affairs that are kept profoundly secret from the British public, are freely known in St Petersburgh and Vienna. The expressions of indignation against Albert who is truly or falsely regarded as the evil tale are unusually strong.—Albert is popular in Manchester, and with manufacturing interests, consequently organs of that interest are silent on the subject but radical and conservative papers alike join in declaring that his interference has reached a pitch dangerous to the Constitution. The affair will doubtless come before Parliament. Parliament met pro forma, 3d. Prorogued with usual formalities to meet Jan 31, for business.

Cabinet Council was held on the 3d inst. and sat four hours. All the Ministers were present. Business unknown.

Financial quarter ended Jan 5, and shows large increase of revenue.

FRANCE

The customary New Year's Levee, was held on Sunday, Jan 1st, at the Tuilleries. In addressing the ambassadors, Napoleon said, "I sincerely hope to be able to to maintain the relations of unity which now subsist between my government and the Sovereigns whom representatives you are." Turning to the Ottoman ambassadors, he added, "My good wishes, my sympathies and my efforts are in favor of your Sovereign, and you will be good enough to communicate to him what I say."

The Times repeats our correspondent's statement, that when required, 70,000 Frenchmen will form a camp, part near Adrianople, and others near Constantinople.

Report from War Department states that the number of men available for arms in France in event of general war is one and a quarter millions for land service. It is current in political circles that the Czar does not cease to tempt Napoleon to desert English alliance, by offers of consent to French annexation of Belgium and Egypt. Czar promising also to abandon the cause of French Bourbons.

BELGIUM.

The King has decreed total suppression of import duties on coal till further notice.

SWEDEN AND DENMARK.

The governments of Sweden and Denmark have addressed a circular to all the courts of Europe stating that whatever difficulties Turkey may cause among maratime powers, Sweden and Denmark have formally resolved to remain strictly neutral.

PRUSSIA.

Prussia is about to submit to the Chambers a project for a loan.

AUSTRIA.

Vienna advices contain a report of immediate 5 per cent home loan of $25,000,000. If immediately issued, it proves that Austria disbelieves in the prospects of peace.

Private letters mention that a reduction took place from 1st inst. on pig and railway iron import duties.

Liverpool Cotton Market. Collingshead & Co. report that notwithstanding the interruption to business from snow, the demand during the week was steady for all classes of American. The market continues bare of middling qualities, owing to contrary winds. Quotations firm and unchanged. Inferior qualities met rather less attention. Total sales of the week, 29 890 including 21,000 American, 4230 for speculation, 2210 for export. New Orleans—Fair, 6⅞d, Middling, 6½d, Fair Mobiles, 6⅝d. Stock 587,801 bales.

Breadstuffs—Continue buoyant, prices of all articles having advanced daily, and show large improvement on the week, viz:
Wheat, 14d per bushel dearer
Flour 3s. 6d dearer
Corn 2s. dearer.

Brown, Shipley & Co quote U States white wheat at 11s 10d to 12s 6d. Red 10s 3d to 11s 6d. Western Canal and Canadian flour at 41s 6d to 42s. Philadelphia, Baltimore and Ohio, 42s 6d a 43s. Sour 34s to 37s.

White corn 49s, yellow 45s, mixed 47s.—The market closed Friday the 6th firm, with a good demand. The advance was caused by the speculative feeling that the spring importations will be short of the wants.

Provisions. Gardner & Co. and others report limited sales of beef at previous rates.—Stock on hand December 31st, 7360 bbls of average quality.

Pork—French now rather more in favor at a slight improvement.

Produce. The Brokers' Board quote ashes 400 barrels at 31s 3d to 32s for pot, 29s pearls.

Preservation of the Missouri Compromise.

New York, Jan 20

A document is in circulation here, headed, "No infringement of plighted faith—no violation of the Missouri Compromise—Merchants, Mechanics and Citizens of New York generally, without distinction of party, who would preserve inviolate the Missouri Compromise, are invited to meet on the 8th at the Broadway Tabernacle." It is already signed by some of the first names in the city.

Paper Hanging Manufactory. We see it stated that the only establishment in the world where paper hangings are printed from paper manufactured in the same factory, is to go into operation in Manchester next month. The main building is 200 by 60 feet, five stories high, with an L 60 feet by 50. The lower part is to be devoted to the manufacture of paper, and the upper part to the printing. The company will employ about 170 hands, and will manufacture about two and a half million rolls per year. The raw material for this mill is obtained of the large cotton mills of Manchester, so that the refuse of the one feeds the other.

Sam Slick says, "I believe every critter in the world thinks that he's the most entertainin' one in it, an' there's no gettin' on a show without him. Consait grows as nat'ral as the hair on one's head, but it's longer in comin' out."

Samuel Lover who has married a rich old woman since his return from America, is now too grand to appear personally before audiences, but he has written Songs and Sayings of Samuel Lover, which E L Hine is to give as a public entertainment.

Lady Peel, lady of the late Premier has gone over to the Church of Rome, with one of her daughters. It is said that both now on the continent, intend to take the veil.

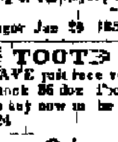

☞ **To the Ladies.**—Hurd's Golden Gloss, for the Hair, is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful flowers. It makes the hair soft, glossy, and beautiful, and causes it to grow luxuriantly, preventing it from falling off or turning grey. It removes dandruff, prevents eruptions forming, and keeps the scalp clean, smooth and healthy. It has cured nervous and sick headache by a single application. Ladies who have used it will in future not be without it. Price 25 cts. W. C. HURD, Proprietor, 338 Broadway, New York. S. E. PERKINS, Agent, Bangor. jan9 3m

MARRIED:

In Boston, Jan 18th, at St Paul's church, by Rev. Dr A. H. Vinton, Donald C. McRuer, Esq., of San Francisco formerly of this city, to Miss Elizabeth P. Bates, of Boston.

In South Orrington, Jan 22d, by Rev. E. S. Abry, Mr Richard C. Nye, Jr. to Mrs Martha E. Baker both of S O.

BROWN'S BRONCHIAL TROCHES:

For the alleviation of Bronchitis, Hoarseness, Coughs, Colds, and similar Affections of the Throat.

THESE Lozenges are prepared from a highly esteemed recipe, for alleviating Bronchial affections, possessing peculiar properties which remove hoarseness and render the voice smooth and clear. Public Speakers, Singers and other persons suffering from Affections of the Throat, Hoarseness, Colds of longer or shorter duration or a hampered state of the voice will find these Lozenges efficacious in allaying any irritation of the Bronchial tubes, whether produced by Cold, Influenza, or any unusual exertion of the Vocal Organs, in speaking or singing.

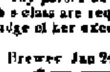

Prepared by JOHN I BROWN & SON Chemists 425 Washington (opposite Essex) St, Boston

Messrs. JOHN I. BROWN & SON:
Gentlemen—A knowledge of the manner in which various articles of the Materia Medica were combined by you to form the "Bronchial Troches" led me, three or four years since, to adopt the same. The results have been such as to induce me to continue the practice, believing them of great benefit in many affections of the Bronchial organs. Yours, etc J F W LANE, M D
Boston, Sept 1st, 1852

Boston, August 30 1852.
Dear Sir—Your Bronchial Troches seem to me a simple and elegant form for administering a combination several medicinal substances, held in general esteem among Physicians in the treatment of Bronchial affections.
Very respectfully, GEO. F BIGELOW, M. D.
To Theron T Brown, Esq, 454 Washington street

For sale by INGRAHAM & FULLER Druggists Bangor Jan24

New Brig for Sale.

Now on the stocks, of 240 tons burthen, 105 feet on deck, about 10 feet hold, 25 feet beam—well calculated for the coasting trade. She has been built of part White Oak and Hard Pine, the frame put up in July last.—She is well seasoned, and her work will compare with that of any one built on the river the past year. She will be ready for sea as soon as the ice is out of the river.

Any person desirous of purchasing a vessel of this class are requested to call and examine, and judge of her excellence for themselves.

FOR SALE!
Bark Gold Hunter.

This Bark was built at Bangor—is four years old and a new dual arging at Norfolk from her second voyage from California.

She was built under the eye of her present owner and no pains or expense, either in materials or workmanship, were spared in her construction.

Her dimensions are 127 feet on deck, 29 feet beam, 11 feet hold, and measures 321 tons. She is copper fastened and coppered to the bends in the spring of 1852. She is a good sailer, having made her first passage home from California in 112 days.

Those wishing to purchase a vessel of her class will find it for their interest to examine her where she now lies. JAMES DUNNING.

From long acquaintance and intimate official relations with Mr Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues. WM. P. N. FITZGERALD, *Late Principal Examiner of Patents.*

Boston, Dec 31, 1853 3mw11 6

House-keepers, look at this!
Admirable Invention!
PATENT SELF HEATING SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men, but machinery and other modern implements, but females have been nearly neglected, until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This iron combines economy, convenience, saving of labor and despatch; one cent's worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the kitchen will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle and possess equal superiority.

For sale, wholesale and retail, by the subscriber, who is the only Agent for Penobscot County, ALBERT NOYES. May17 tf

Fashionable Eating House.
Knowles & Johnson,
No. 5 Bowman's Block, East End of Kenduskeag Bridge, Bangor.

WE have opened a beautiful establishment for the sale of

Fruit, Confectionery & Pastry,

and have several apartments and well finished rooms fitted up with Marble Tables, for the purpose of furnishing to gentlemen and also to ladies and gentlemen, a nice tit-bit in the shape of a Lunch, or a neat and comfortable Meal, at any hour of the day and at a moment's notice.

The entrance to the Ladies' Saloon is by the stairway entrance to the Mercantile Association Reading Room.

This is a fast age, and gentlemen visiting the city with their wives do not like a long, tedious waiting for a set and formal dinner under the ponderous machinery of a hotel, and our plan is to give them an elegant meal in our Saloon, without the loss of time and at about half the hotel price. A gentleman in a hurry, a lady who may be tired or obstructed by a stormy day, can pop in and get their meal without trouble, and with little expense.

We have made the beginning in this city of a most convenient and popular arrangement under the times, and we intend to keep up its reputation for style and usefulness.

OYSTERS served in all the various styles.

Pies, Pastry, Fruits, Preserves, Nuts, Apples, Oranges, Hot Tea, Hot Coffee.

Families and Parties served with all varieties of the above, in any quantity, and at reasonable prices.

Please to call in and try our establishment.

H. W. KNOWLES. C. C. JOHNSON.

READ! READ! READ! READ!
DR. HAMPTON'S VEGETABLE TINCTURE!
The Great Restorative and Invigorator of the System.

This article, which has made so many wonderful cures, was discovered by Dr. Isaac Hampton, of Louisville, Ky., now in fine health in the 70th year of his age, and is acknowledged by those who have used it to be the best family medicine in use; and is warranted free from all mineral substances. By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints as Dyspepsia, Cough, Asthma, Bronchitis and Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Bowel Complaint, Worms, and Nervous Debility, with all diseases arising from impure Blood. As a Female Medicine it has no equal. It will change the complexion from a sallow to a blooming one.

Green Mountain Vegetable CEMENT!

BROKEN China, Glass, Earthen Ware, and Fancy Articles of every description, repaired and mended, making it as strong as before broken, without causing it to appear mended.

This Cement, which has been used and proved to be of great strength, will be found particularly useful in every family; the simple manner of its application is alone a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The objects for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass, China, &c. is extraordinary, no ordinary degree of heat affecting it and as the joints are scarcely perceptible articles of this can may be made use of for years, which otherwise would have been cast away.

Peddlers, Merchants and others, supplied on the most favorable terms, by JOSIAH BRIGGS, Inventor and Manufacturer, No. 20 East Market Place—Bangor. aug19

Also for sale wholesale and retail, by GEO. W. EMERSON, No 4 Smith's Block.

California Steamers,
Carrying the United States Mail;
Through Tickets without Detention.

BY order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th, and 20th of each month—excepting when these dates occur on Sunday, and then the day of sailing will be postponed to the following Monday.

Arrangements have now been completed so that the regular U. S. Mail Steamer will leave Panama for San Francisco, immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a SURE and SHORT passage, without any detention on the Isthmus.

Notice to Passengers from Panama to California.

The Pacific Mail Steamship Company feel called on to give public notice that no tickets will be recognized by their *Agents at Panama*, which are not signed by an *officer of this Company*, and tickets thus signed can be obtained only at their Agency, 177 West street, New York; or of C. L. BARTLETT, Esq., Boston; or of Messrs. ARMSTRONG, HARRIS & Co. New Orleans.

By order WM. H. DAVIDGE, Sec'y.
New York January 26, 1852.

Plans of the ship can be seen and tickets secured at the only authorized Agency Office of the Pacific Mail Steamship Company, Broad Street, Boston.

Bangor, Dec 6 1853

THE GREATEST MEDICAL DISCOVERY OF THE AGE!

MR KENNEDY of Roxbury has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands, hums nor ha's about it, suiting some cases but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old, to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

ORDWAY & WAKEFIELD, Lawrence, Mass., General Agents for New England, and exclusive Agents for New Hampshire, to whom all orders should be addressed.

G. W. [illegible], Portland, General Agent for Maine. Sold in Bangor by G. F. Sargent, Peter & Lewis, Samuel L. Parsons, Ingraham & Fuller, Guild & Harlow, and Dr. H. Knowles, and Druggists generally.

KENNEBEC RAIL ROAD.

Winter Arrangement.

COMMENCING DECEMBER 1, 1853.

TRAINS will run in connection with Trains of the Grand Trunk Railway, as follows: Leave Waterville at 4.40 and 11.20 A. M., arriving in Portland in season to connect with trains for Boston.

Returning—Leave Portland at 7.15 A. M. and 1.30 P. M., arriving in Waterville at 10.53 A. M. and 5 P. M.

Freight Train each way daily.

In connection with the above, Trains are run to Kendall's Mills—Penobscot and Kennebec Railroad—leaving Waterville on the arrival of each train from Portland. Returning, leave Kendall's Mills for Waterville at 10.03 A. M. and for Waterville early at 3.15 P. M. Freight train leaves Kendall's Mills for Waterville at 3.5 P. M.

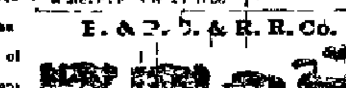

Through tickets are sold between all the Stations on this road and the principal Stations on the Eastern and the Boston and Maine Rail Road and Lowell. Passengers by either train arrive in Boston same day.

Through tickets from Bangor, by Shaw's line of Stages from Waterville, are sold at Eastern depot [illegible] fare $5.75. Passengers to Boston or Lowell for $5.50, will purchase tickets for Waterville and pay the Conductor of this Road a ticket for Bangor in payment of $1.75. Stages connect with trains at Waterville for all the principal towns East and North, as heretofore.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, TWENTY DOLLARS [instead of twenty, as paid by others] will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof within thirty days after the rejection. Caveats, Specifications, Assignments and all the necessary papers and drawings for procuring patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library, legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington. R. H. EDDY, Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents R. H. Eddy, Esq. of Boston, did business at the Patent Office as Solicitor of Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents."

PATENT OFFICE.

"R. H. EDDY Esq. Boston, Mass.—Sir—Your facilities for the prosecution of any business connected with this office are equal to those of any other agent. I am very respectfully, yours, &c. THOMAS EWBANK, Commissioner of Patents."

Boston Sept., 1853 3tiwdawweekly

Communications by mail promptly answered. oct29 d&w3m

Dr. Pomroy's Ophthalmic Ointment OR EYE SALVE.

Is the Remedy which Cures Sore and Weak Eyes. Read the following:

I. W. N. Cronch, Professor of Music, Portland, used Dr. Pomroy's Eye Salve for a severe affection of the eyes, and by a few applications they were restored to their former strength and usefulness.

Mr. H. K. Hinkley, Pine street, has used this celebrated Eye Salve in his family, and says that it exceeds all other preparations for affections of the Eye—such as Stais, [illegible] of the Eyes &c. &c.

Mr. W. H. Runyon, Market Square, Portland, was troubled with an affection of the eyes [illegible] years, and was entirely cured by Dr. Pomroy's Ophthalmic Ointment or Eye Salve.

Mr. Walter Wells, Principal of the Academy at Augusta, used this soothing preparation for a severe inflammation of the Eyes, and was entirely cured by two or three applications.

Mr. Andrew Molony, Fore street, Portland, was cured of a severe case of inflammation and ulceration of the Eye lid by the use of Dr. Pomroy's Eye Salve, for a few days.

Mrs. Tucker, Fore street, Portland, has used Dr. Pomroy's Eye Salve for her grand daughter, who is troubled with an affection of the Eye, Weakness, &c., and says it has greatly relieved her.

Many more such cases as the above might be adduced to prove the efficacy of this excellent salve, but we deem it needless, those who have used it do extol its merits and spread abroad its fame.

PRICE 25 CENTS PER BOX.

Sold in Maine by Druggists and Dealers in Medicine in nearly every town.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for in truth all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer [illegible]

[illegible] the distinguished [illegible] of New York City.

Doct. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Supt. and Surgeon of the United States Marine Hospital at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.

G. W. Emerson, G. F. Sargent, G. [illegible] S. E. Perkins, W. L. Alden, [illegible] and by all other druggists. [illegible] 3tawd&wly
